**VI. Solutions to Priority Issues – Brian Lezina, CPRA (Video #00021 00:05:16)**

- Briefed Board and discussion from Board members on implementation of potential solutions to priority issues discussed in previous meeting.
- Potential solutions covered were inputs to the system, channel management, and floodplain areas. In depth discussion of ORCS, locks, structures, 70/30 consensus and considerations, dredging and increased flow through Wax Lake outlet, sediment pipeline, training and management of system were also covered.
- Discussion of issues being addressed, specific alternatives, impacts of the action, how decisions are made to effect change and how the action is implemented.

# Coastal Protection and Restoration Authority

- Next month's discussion will be regarding backswamp, spoil bank gapping, canal/waterway modifications, local dredging, sediment trapping, structural features and specific habitat considerations.
- Review of ARBRE timeline.
